Notice No. 07-2

Date: 12 January 2007

---

**C.W. Bill Young Lock and Dam, Allegheny River, Mile 14.5**  
**Repair the Land Wall 8-ft x 10-ft Filling Valve and Repair**  
**Deteriorated Hydraulic Pipeline Segments**

1. **TO ALL WHOM IT MAY CONCERN:** Notice is given that the U.S. Army Corps of Engineers' Repair Fleet will repair the Land Wall 8-ft x 10-ft Filling Valve in the single 56-ft x 360-ft lock chamber and also repair deteriorated segments of hydraulic pipeline at the C.W. Bill Young Lock and Dam, Allegheny River. Work is scheduled to begin at 8:00 A.M. on March 12, 2007 and will be completed by 11:00 P.M. on March 30, 2007.
2. The single, 56-ft x 360-ft, lock chamber will be open to river traffic during the scheduled work period. However, closures of 4 to 8-hours will occur periodically (approximately 6 times during the 19-day work period) to move and install valve parts and equipment on the land wall; and also during the replacement of hydraulic pipeline segments.
3. Normal wear and deterioration have made it necessary to schedule this work.

FOR THE DISTRICT ENGINEER:
